A real leader led by the willingness of his followers, in the way that the people at the fusion complex followed Kath or Adam's children followed him, not by command. There's one in New York, one in Washington. Circle of Friends indirectly. Then the tramp of marching footsteps growing louder came from beyond the main doors. A second later the doors burst open, and General Stormbel stomped in at the head of a group of officers leading a detachment of SD troopers. With dispatch, the troopers fanned out, closed all the exits, and posted themselves around the walls to cover the assembly, while Stormbel and the officers marched down the main aisle to the center of the floor and turned to face the Congress from in front of where Wellesley was still standing. Borftein leaped to his feet, but checked himself when an SD colonel trained an automatic on him. He sank into his seat, a dazed expression on his face. "disappoint me. I thought you were a good boy, a nice boy, not a smart aleck." "me, ma'am. Excuse me, sir." Chapter 8. At that moment the emergency tone sounded shrilly from the companel. "minute, deeper than mere night." Micky and Mrs. D tried to delay Leilani's departure. They were afraid for her. They worried that her. "You got it wrong," Colman told them. "It's not the little ones at all." He widened his eyes in a parody of lewd anticipation and grinned. "Think of all those grandmothers." Terry and Paula laughed. "intrusion." "Freezer Sirocco stepped out in front of them with his automatic drawn and Stewart beside him holding a leveled assault cannon. Before the SD's could react, two more weapons were trained on them from behind. They were disarmed in seconds, and Sirocco motioned them through the open door with a curt wave of his gun while Faustzman herded the two startled civilians from the coffee machine. Two women rounded the corner just as the door of the office closed again, and walked by talking to each other without having seen anything. Moments later Sirocco left the office again with two privates. They formed up in the center of the corridor and moved off in step in the direction of the rear lobby. "from the VCR and put it in a Neiman Marcus shopping bag that he'd brought. "I've given you two more. If he had acted responsibly all those years ago, when she was twelve and he was sixteen, if he'd had the right. Then the jig would be up for our friends, the ETs. They'd be so busy dodging alien hunters that they." "Logging on early," Waiters replied. "Merrick wants to talk to you for a minute before you go off duty. He told me to tell you to stop by the ECD. You can take off now and see him on the company's time." He moved over to the console and nodded at the array of screens. "How are we doing? Lots of wild and exciting things happening?" "Your Chevy? It was a piece of crap." "produced on your side," he told her. "A round container, rather like a hatbox, stood on the bed; its red lid lay to one side. "She didn't seem to be in physical pain, after all. She might have been working off excess energy in a communion with the nozzle, feeding on two hundred million years of bog distillations. "Stanislau entered more commands. A different table of information appeared on the screen. "SD guard details and timetable for posts inside the Columbia District tonight," Stanislau said. They would refrain from doing anything to that one until the last moment. "LOOKING MORE LIKE herself in the skirt and sweater that Jean had given her, Celia sat at the dining table in the Fallowses' living room, clasping a cup of strong, black coffee in both hands. She was pale and drawn, and had said little since her arrival with Colman forty minutes earlier at the rear entrance downstairs. The maglev into Franklin was not running and the Cordova Village terminal was closed down, but the tunnel system beneath the complex had provided an inconspicuous means of approach; Colman hadn't wanted to draw any undue attention by landing an Army personnel carrier on the lawn. "Lesley nodded. "He's been there all evening. Arrived around 1800 with Stormbel for a staff conference with the high command. They're all in there. "He frowned at the expression on Colman's face. "Nobody knew?" "Stanislau took a long draught from his glass and made a what-the-hell? gesture. "My grandfather stayed alive in the Lean Years by ripping off Fed warehouses and selling the stuff. He could bomb any security routine ever dreamed up. My dad got a job with the Emergency Welfare Office, and between them they wrote two sisters and a brother that I never had into the system and collected the benefits. So life wasn't too bad." He shrugged, almost apologetically. "I guess it got to be kind of a tradition... sort of handed down in the family." "I know all the bemuses. No need to list them." "Talking to Jay had brought to the surface a lot of things that Colman usually preferred not to think about. Life was like the Army: It took people and broke them into little pieces, and then put the pieces back together again the way it wanted. Except it did it with their minds. It took kids' minds while they were plastic and paralyzed them by telling them they were stupid, confused them with people who were supposed to know everything better than they did but wouldn't tell them anything, and terrified them with a God who loved everybody. Then it drilled them and trained them until the only things that made sense were those it told them to think. The system had turned Anita into a doll, and it was trying to turn Jay into a puppet just as it had turned Bernard into a puppet. It turned people into recording machines that words went into and came out of again. "and made them think they knew everything about a planet full of people they'd never seen, just as it blew black guys' brains out because they wanted to run their farms and didn't want their kids nailed to walls, and then told the civilians in Cape Town it was okay. And what had it done to Colman? He didn't know because he didn't know how else it might have been. "and earn her approval. "Baldwin is a more believable villain than hero." "In afterthought, the ladybug liberator called to him: "Laura's not here a lot today. Gone off in one of truck-stop parking lot. Celia sank back into her seat and closed her eyes with a nod and a sigh of relief. One of the figures in the darkness wanted to know how come somebody called Stanislau knew how to fly something like this; Another voice replied that his father used to steal them from the government. "They would never have listened if I had told them. It was necessary to demonstrate that every alternative to force was futile. Now they will understand, just as you have come to understand." "With the thumb on her deformed hand, Leilani gestured toward Geneva, and said to Micky, "She's an. to question the outrageous family portrait that the girl was painting for them.
